

# I Can Work On My Airplane Just Like My Car, Right?

The Federal Aviation Regulations require that an aircraft is "Airworthy" before a pilot can legally fly it! But do you know the definition of the term airworthy? How can a pilot know the aircraft meets this requirement? Owner/operator definitions and responsibilities will also be covered and the types of maintenance an aircraft owner can perform? Attend this informative meeting and learn the answers to these questions and more. Free Food and Drinks! Neil's famous chili!

**Directions:** Please see map link for directions, seminar will be in the C&W Hangar.

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
